

GUIDELINES FOR FINANCIAL AID DECISION-MAKING

Introduction

Financial aid decisions are currently made by the Administrative Committee on the basis of the specific requirements of each scholarship or grant.

1. All scholarships and grants are listed in the academic catalogue along with the requirements to access each. In addition, the Business office advises students who are experiencing difficulty with making payments of the payment plan facility that is available.
2. Students are invited to apply for available financial aid.
3. Applications are reviewed by a subcommittee of the Administrative Committee comprised of the Vice President for Business Services, the Vice President for Academic Affairs and the Registrar.
4. The Administrative Committee makes a final decision regarding applicant's eligibility and access to such aid based on the recommendations of this subcommittee.
5. The business office then applies the relevant sums to the student's account.
